Drying Solutions

MINTEK IS YOUR ONE-STOP SHOP FOR CALCIMENT® LKD, QUICKLIME, & MORE!

WHEN MUDDY SOIL THREATENS PRODUCTIVITY, MINTEK HAS THE RIGHT SOLUTION!

- Fast drying for optimized moisture content.
- Cost effective solutions.
- A variety of package options to accommodate specific job site requirements.
- Flexible shipping & multiple distribution points for ease of supply.

THE FIELD-PROVEN LEADER IN MOISTURE REDUCTION

Time equals money and a delayed project can result in higher costs and lost opportunities. Mintek's solutions offer fast, effective, dewatering, PI reduction, and stabilization in wet, unworkable soils. Exothermic reactions quickly remove moisture from soils keeping your crew working and your project back on track. Ensure you get the right product for your specific project by utilizing Mintek's technical support. Mintek's supply chain will then make it effortless to get the product you need, when you need it. An added bonus: our solutions are an economical alternative to competitive drying reagents.

FAST, EFFECTIVE DRYING SOLUTIONS FOR THE TOUGHEST JOB SITES

Mintek can help ensure the right solution for your project. Contact us today for more information!

*According to 3rd party test results. Results may vary based on soil type, moisture and ambient conditions. Contact us today for our soils chart, product selection guide, or technical support for help selecting the right solution for the application.

FAST DRYING

SAVE MONEY

**STAY ON TIME
& BUDGET**

“

**NO DRYING REAGENT
WORKS FASTER
OR PROVIDES A
BETTER VALUE THAN
CALCIMENT ON MANY
SOIL TYPES.**
