Industrial Services Solutions

MINTEK IS YOUR ONE-STOP SHOP FOR CALCIMENT® LKD, LIME, BED ASH, FLY ASH, CEMENT, & MORE!

- Accelerate production for reduced downtime & labor costs
- Fast dewatering & solidification for increased productivity
- Ideal for hazardous & non-hazardous waste streams
- Economical alternative to higher priced reagents and techniques
- Heavy metal waste fixation by adjusting the pH rendering metals insoluble
- Alkaline properties for economical acid neutralization
- Logistics ease with multiple packaging & delivery options
- Over two decades of environmental industry experience

SAFE, EFFECTIVE & ECONOMICAL

FLEXIBLE PACKAGING & QUICK DELIVERY

FASTER CLEANING FOR REDUCED DOWNTIME

DEWATERING, NEUTRALIZING & STABILIZING SOLUTIONS FOR INDUSTRIAL CLEANING, MAINTENANCE & RESTORATION

Time equals money and unwanted downtime can lead to lost opportunities and dissatisfied customers. For over two decades, Mintek's solutions have been used in the environmental market to accelerate clean-up of a variety of waste streams. Our products are fast, effective reagents that quickly dewater, neutralize and stabilize waste generated from industrial processes. Mintek can help select the best solution for quick project turnaround to enable the least amount of facility downtime possible. Once treated, the waste can be managed to an on-site or off-site disposal facility. Our products are available in bulk truckloads, one ton super sacks & 80 lb. bags to accommodate jobs big or small. Fast service and support ensure on time delivery.
