CREDITS!**

LUNCH & LEARN SESSIONS WITH MINTEK RESOURCES

Mintek Lunch & Learn sessions offer a wide range of topics, from our general “Lime 101” to targeted topics like Cold Weather Work or Full Depth Reclamation. We are happy to come to your facility as we find that in-person meetings allow for more dialogue. We also offer virtual meetings upon request.

LUNCH & LEARN EDUCATIONAL COURSES AVAILABLE

STANDARD LIME 101 TOPICS:

- Lime Terminology
- Product Guidance
- Laboratory Testing
- Soil-Lime Interactions
- Benefits
- Field Application

PERSONALIZE WITH THESE ADDITIONAL TOPICS:

- Field Guide
- Laboratory Support
- Cold Weather Work
- Lime vs Cement
- Case Studies
- Full Depth Reclamation
- Site QA/QC
- Specification Support

MARKETING SERVICES

Mintekresources.com is your one stop shop for all things lime. You can find helpful tools and resources on our Resources page, like SDS and application sheets or our Dose Rate Calculator. Check out our Blog for insights from our experts, follow us on LinkedIn and YouTube for the inside scoop on what's happening in the lab, and collaborate with our marketing team to create co-branded project case studies. We're here to help!

SPEAKER SPOTLIGHT

PHIL BELCASTRO

Customer Applications Manager

Phil Belcastro received his Bachelor's degree from the University of Pittsburgh in 2009. He has 14 years of experience with Mintek Resources and Carmeuse Americas, Mintek's parent company where his primary focus is on the use of lime for soil stabilization, providing direct customer technical support, developing new market opportunities, and performing research and development for the construction market segments. Early in his career he spearheaded pilot scale lime injection trials for the steel market, conducted in-house flue gas technology testing, and commissioned Carmeuse's first custom mobile lime slaking unit. Phil is an active member in various state and national technical committees including ASTM Committee D18 on Soil and Rock as well as ARRA's FDR and Soil Stabilization Committee. He has also worked with multiple state departments of transportation to develop and improve their standard specifications.

CRAIG ADDISON

Senior Manager, Market Development

Craig Addison holds a Master of Business Administration from Robert Morris University and a Bachelor of Arts in Biology with a minor in Chemistry from Slippery Rock University. Before joining Mintek Resources, Craig served as the Technical Solutions Manager at Carmeuse Americas, where he managed technical support teams across diverse markets, including construction aggregates, building products, agriculture, and soil stabilization. His leadership in evaluating sustainable ventures and innovative technologies, such as carbon capture, has contributed to significant advancements in the industry. At Mintek Resources, Craig leads a team of technical specialists and Market Development Managers across the eastern United States. His technical acumen has driven significant advancements in lime stabilization techniques, resulting in improved soil stabilization solutions and enhanced project outcomes. He has played a key role in developing and optimizing lime stabilization processes, ensuring that Mintek Resources remains at the forefront of industry innovation.

DOSE RATE CALCULATOR

Looking to find how much reagent you need for your job site? Check out our Dose Rate Calculator. This handy tool uses the information you provide about your project to estimate the right amount of material. If you have any questions, our support team is here to help. You can find it at doseratecalculator.mintekresources.com
